

Advanced Web Technologies Lab

Subject Code: MCAL24

A Project Report Submitted in
Fulfilment of the Degree of

MASTER

In

COMPUTER APPLICATION

Year 2022-2023

By

Mr. Ravishankar Jaiswal

(Application Id-172047)

Semester-II

Under the Guidance of

Prof. Dnyaneshwar

Institute of Distance and Open Learning
Vidya Nagari, Kalina, Santacruz East – 400098.
University of Mumbai

PCP Center

[Satish Pradhan Dyanasadhana College, Thane]

Institute of Distance and Open Learning
Vidya Nagari, Kalina, Santacruz East – 400098.

CERTIFICATE

This to certify that, “ **Ravishankar Jaiswal** ” appearing **Master’s in computer application (Semester II) Application ID: 172047** has satisfactory completed the prescribed practical of **MCAL24 -Advanced Web Technologies Lab** as laid down by the University of Mumbai for the academic year 2022-23.

Teacher In Charge

External Examiner

Exercise	Topic	Date	Signature
1	Write a C# console application to perform basic Addition, multiplication, division, and subtraction operation.		
2	Write a program to print 1 to 10 multiplication table using nested for loop.		
3	Design a UI based application using basic Windows forms controls.		
4	Design a web application for an organization with registration forms and advanced controls.		
5	Creating a new ASP.NET Web Forms page		
6	SQL Server Database connection and fetching Data.		
7	CRUD operations		
8	Different Data bind Controls		

1.a Write a C# console application to perform basic Addition, multiplication, division, and subtraction operation.

```
using System;
namespace Sample
{
    class Demo
    {
        static void Main(string[] args)
        {
            int num1 = 50;
            int num2 = 25;
            int result;
            result = num1 + num2;
            Console.WriteLine("Value is {0}", result);
            result = num1 - num2;
            Console.WriteLine("Value is {0}", result);
            result = num1 * num2;
            Console.WriteLine("Value is {0}", result);
            result = num1 / num2;
            Console.WriteLine("Value is {0}", result);
            result = num1 % num2;
            Console.WriteLine("Value is {0}", result);
            result = num1++;
            Console.WriteLine("Value is {0}", result);
            result = num1--;
            Console.WriteLine("Value is {0}", result);
            Console.ReadLine();
        }
    }
}
```

```
C:\Users\Ankit\source\repos\ X Settings X + v
Value is 75
Value is 25
Value is 1250
Value is 2
Value is 0
Value is 50
Value is 51
```

1.b Write a program to print 1 to 10 multiplication table using nested for loop.

```
using System;
```

```
public class Exercise6
```

```
{
```

```
    public static void Main()
```

```
    {
```

```
        int j, n;
```

```
        Console.WriteLine("\n\n");
```

```
        Console.WriteLine("Display the multiplication table:\n");
```

```
        Console.WriteLine("-----");
```

```
        Console.WriteLine("\n\n");
```

```
        Console.WriteLine("Input the number (Table to be calculated) : ");
```

```
        n = Convert.ToInt32(Console.ReadLine());
```

```
        Console.WriteLine("\n");
```

```
        for (j = 1; j <= 10; j++)
```

```
        {
```

```
            Console.WriteLine("{0} X {1} = {2} \n", n, j, n * j);
```

```
        }
```

```
    }
```

```
}
```

```
Microsoft Visual Studio Debu x Settings x + v
Display the multiplication table:
-----
Input the number (Table to be calculated) : 6
6 X 1 = 6
6 X 2 = 12
6 X 3 = 18
6 X 4 = 24
6 X 5 = 30
6 X 6 = 36
6 X 7 = 42
6 X 8 = 48
6 X 9 = 54
6 X 10 = 60
C:\Users\Ankit\source\repos\AddMulSubDivSample\AddMulSubDivSample\bin\Debug\net8.0\AddMulSubDivSample.exe (process 34348) exited with code 0.
To automatically close the console when debugging stops, enable Tools->Options->Debugging->Automatically close the console when debugging stops.
Press any key to close this window . . .
```

1.c Design a UI based application using basic Windows forms controls.

FORM1.CS

```
using System;
using System.Collections.Generic;
